

# Monday - 2 May 2022

## Agenda: Sprint retrospective meeting

Location: Online

Date: 2.05.2022

Time: 17:00

Attendees:

- Manar Al-Robayi
- Radu Constantinescu
- Ahmed Ibrahim
- Lucian Negru
- Kendra Sartori

## Points of action last week

1. Complete project plan - can be found in Notion under Assignment 3.
2. Learned React and made some dummy applications with it in order to get familiar with it.
3. Created a database with a subset of the whole dataset to get acquainted with it.
4. We have had our first meeting with our coach who has informed us about the midterm presentation, to which a representative of the company should assist.

## Questions

1. How does the database of Furning work? Is data extracted from all the other websites constantly being updated?
