

Sprint Plan - Week 6 - 25th May

Agenda: Sprint planning

Location: Online

Date: 25.05.2022

Time: 10:30

Attendees:

- Manar Al-Robayi
- Radu Constantinescu
- Ahmed Ibrahim
- Lucian Negru
- Kendra Sartori

Action points for next week

1. Administrative

- Work on the introduction of the report and put it in the presentation
- Do the style assignment

2. Frontend

- Fix bug for posting an excel order and bug when editing quantity
- Add button to take the user directly from home page to basket page
- Test the routing of the frontend
- Create a JSON file to be automatically updated with the contents of the basket

3. Backend

- Integrate current implementation in actual backend

- Return the processed dataframe as a json to the frontend
- Finish up the testing
- Use the neural network to predict the columns
- Maybe combine heuristics with neural network to achieve higher accuracy

4. Configuration

- Detailed description of how to run the project and the APIs in the README

5. Research

Notes

- Recommended use of pytest for the backend testing
- Decide on our metric of evaluation - **URGENT**
-
